ENVIRONMENTAL AND QUALITY POLICY

Unident Group, including all its companies and brands, is a full-range supplier for the dental clinic. We collaborate with well-known brands manufacturers and producers. We also provide service and support and back our customers up with knowledge and expertise gained from 30 years in the dental industry.

Our employees' commitment, competence, flexibility and sense of responsibility form the foundation of our environmental and quality work. We actively strive to continuously improve our environmental and quality performance.

We comply with current legislation, customer requirements, and other binding regulations applicable to our business. Customers should always feel confident knowing that we deliver the right product, with the right quality, at the right time.

To improve our environmental and quality performance and ensure that we meet our customers' needs, we shall:

- Continuously work to understand customers' needs and meet their expectations
- Digitalize processes within dental technology
- Set environmental and quality requirements for our suppliers when selecting the product range
- Streamline transportation, both for deliveries and returns, to minimize emissions
- Prevent waste and promote the reuse of equipment
- Continuously improve our processes and deliveries
