

# Hygoformic® Bio Adaptor

Green PE is a bio-based polyethylene made from sugar canes. Unlike conventional PE where fossil raw materials such as oil and natural gas are used, sugar cane is a completely renewable resource.

The traditional Hygoformic soft adaptor is now also available in environmentally friendly PE.

Prod No: S100Bio

External diameter: 6,5 mm

Colour: Opaque White

Manufactured of Green PE

By using Green PE, bio-based polyethylene, Orsing reduces the level of carbon dioxide in the atmosphere. We help saving our planet for future generations. Dental manufacturers can also make a difference to reduce global warming.

As a leading manufacturer of saliva ejectors and aspirator tubes, Orsing considers environmental sustainability to be of great importance.
