<b>ENVIRONMENT AND QUALITY POLICY</b>					

## Environment and quality policy

Unident Group, including all its companies and brands, is a full range supplier for the dental clinic. We cooperate with well-known brands manufacturers and producers. We also provide service and support and back our customer's up with knowledge and know-how from 30 years in the dental industry.

Our employee's commitment, competence, flexibility and sense of responsibility are the basis of our environmental and quality work. We work actively to continuously improve our environmental and quality performance.

We shall comply with current legislations, customers' requirements, and other binding requirements applicable to the business. The customer should always be confident knowing that we deliver the right product with the right quality at the right time.

In order to improve our environmental and quality performance and ensure that we fulfill the customers' needs, we shall:

- Continuously working to understand the customers' needs and fulfill customer expectations
- Digitalize the process within dental technology
- Set environmental and quality requirements towards our suppliers when choosing product range
- Streamline transport, both in terms of delivery and returns, to minimize emissions
- Prevent waste and promote re-use of equipment
- And continuously improve our processes and deliveries
